Chief Sufferer Under the New Democratic Tariff.

Cost of Living Has Not Been Cut, Despite Assertions Made-"Middlemen" Seem to Be the Ones to Be Congratulated.

The new American tariff is still in rocess of going into effect, if the readjustment of other tariffs in order to take advantage of our home markets thrown open to foreign wares is to be taken into consideration. Shipments of Argentine corn, which caused a break of ten cents a bushel at Chicago, are to be supplemented by cargoes of wheat, which also comes in free, now that that article of produce is on the free list as the result of our South American rival taking the duty off our wheat. The difference in price is favorable to heavy imports, and our wheat markets instantly reflected the fact by taking a sharp downward turn.

Additional to wheat and corn, Argentine meat packers are now making regular shipments to our Atlantic ports, and one large house at Buenos Aires has acquired extensive terminal facilities at New York, apparently in the belief that the new conditions will be

However, Canada is the principal beneficiary up to date, her exports of cattle and other articles having more than doubled in value since Ociober. Cattle and oats have been the principal gainers, but if the Canadians pattern after Argentine in taking their tariff off our wheat the latter article will enter into fierce rivalry with our own. Cattle are coming from Mexico in increasing numbers, despite the war, so that it happens to our surprise that left the buggy." not the old world, but the new, is the principal source of the increase in our food supply which was to cut down the gested the man from Topeka. cost of living, but has not as yet made a dent in it, and also that the American farmer, more than the manufacturer, has to stand the brunt of foreign

In face of actual conditions and developments under the new tariff, the authors of that measure state that they are in receipt of thousands of letters from small traders telling of the better results they secure under revision. But "small traders" are middlemen, not consumers. The latter are forced to pay higher prices than before, all of which goes to the enrichment of the very class the new tariff was to put the screws on. Therefore, if the middleman is the gainer at the expense of the consumer, instead of the contrary. by what mental route do the high priests of low tariff arrive at the conclusion that the results achieved fulfill their promises?

Can This Help Farming? Now that the new tariff law is in full effect, except as to the delayed complete abolition of the duty on sugar, and one or two other clauses, papers in this part of the country home will come later if you first of a whole sex is already awake in which championed such tariff reduc-"make good" by adjusting your de- them, but they are rarely devoted to tions as have been written into the nawhether the beet sugar industry of northern Ohio is doomed. They publish figures which indicate that \$5,000,-000 invested in sugar mills and machinery will have to find some other use, if any part of this capital can be saved. It seems probable that 45,000 acres devoted to the growing of sugar beets will have to be otherwise employed.

Can this sort of thing go on in many states, not merely in one corner of Ohio, without affecting American agriculture adversely? Is it possible to kill such an industry as the making of sugar from beets has grown to be and still benefit the farmers of the United States? Is it reasonable to suppose that the effect of the tariff will be favorable to country life-that basic interest which is so much discussed at present and is made the subject of seep colicitude by men who have done their utmost to put the present law on the books-when it narrows the range of crops and curtails the opportunities for profit in agriculture?

Another Spoils Raid So President Wilson is "exceedingly other of those "vicious riders" to an

appropriation bill. His "displeasure" will hardly amount to much unless he translates it into the form of a positive threat of a veto. He has already signed two such

spoils bills-doubtless in order to keep | bonnet. the so-called "wonderful control" on congress which enabled him to put through his legislation. That control has been largely purchased by these concessions to spoils which have already gone far to break down the merit system.

But if the president is at the eleventh hour becoming restive under the demands of the spoilsmen, much may still be done by way of salvage of that system.

Repeating History. Secretary Bryan's "money plot" is the most sensational that has been discovered in this country since T. R. unearthed his celebrated \$5,000,000 conspiracy banquet at Pittsburgh on the eve of the Harriman disclosures.-Boston Transcript.

Age of Discovery. Private Dalzell has discovered that the Democratic administration is not an enemy of the old soldier. This is an age of discovery, by the way .-Rochester Herald.

Will Do Some More Thinking. President Wilson's ardor on his diect presidential primary proposition has cooled after consultation with senators and congressmen. The probability is that he fully realizes he has started something he cannot finish, and that he will say no more about it than he finds he must,

Revision Downward. Furthermore, the tariff has reduced the number of people employed in factories.- New York American.

CLEANED THE DUC'S BUGGY Which Was Not What Boys Intended to Do, but That Was the End

of the Adventure.

"I remember," said Uncle Josh, who had just finished a hearty dinner and was in the humor for telling a yarn, "I remember one balmy day in July when the other boys and I decided to steal old Doc Hoffum's horse and buggy and drive to the river to go swimming. Doc was visiting at our house that day, and it looked easy to us to drive two miles over to the river and get cooled off and then bring the horse and buggy back before the old man missed them.

"There were a good many of us and we were not dressed very fine. Slim, for example was attired in a long linen duster that flopped out behind. The springs allowed us to bump pretty hard, there being so many passengers, but we got to the river safe-

"We had a bully swim, but Slick said he thought we ought to wash the buggy while we were there. The way to do it, he said was to run the buggy into the river. "We unhitched the horse and pro-

ceeded to back the buggy into the water. But the buggy got away from us, and away it went, much further than we expected. We couldn't hold it and so it disappeared entirely. A couple of bubbles came up and that was all!

"While we were diving to locate the buggy the horse got away, and we all took after him. We chased him around a clump of trees, half of us on one side and half on the other to head him off. Both parties rounded the clump of trees at the same time and ran plump into a camp meeting, mostly women!

"We let the horse go then and by that time we had forgotten where we

"I suppose some one stole all your clothes while you were gone," sug-

"No." said Uncle Josh, "we found our clothes, and from their position on the bank we figured out where the buggy ought to be. One of the camp meeting people brought the horse back and we got a rope from him and dived around until we got the rope died to the buggy. Then we got it out on the bank. That is the only time Doc Hoffum's buggy was ever clean!

"Didn't it hurt the buggy?" asked the man from Topeka. "Didn't harm a thing but the squeak. The bath utterly destroyed that. Old Doc Hoffum often wonder-

ed what had become of the squeak. for he missed it badly. The horse missed it, too. It was a good, soothing sound that the two of them were accustomed to doze by as they jogged over the road."

Even Thing. "Sir," began the man with the newspaper in his hand, as he turned to the man on his right, "this is an age of deception.' "I quite agree with you," was the

"Nothing is what it seems to be." "No, nothing."

"For instance, you have been tryhold of my watch. I wear a chain and the natural inference is that there is a watch on the end of it." "But there is no watch. "No, sir. I wear the chain for an

ornament. You have simply thrown away your time.' "And on your part," said the man who had failed, "you took this scarf pin for a real diamond, and have made no less than three trials to se-

"And it is not a diamond?" "No, sir-only a dry goods store rhinestone, but I wear it for an ornament, and it serves my purposes. You have wasted your energies. It's an even thing, however, and let's go for that old duffer as he gets off the car and whack up on the boodle.'

What! Against Vells in Girlington? The vicar of Girlington, Bradford, Rev. George Pedley, deals in his parish magazine with the wearing by women of motor veils and shawls in church. "Many years ago," he writes, "we forbade the use of shawls in church. Much was said at the time, but the rule is observed. Too often a shawl displeased" about the spells raid on as- is a convenient cover for an untidy sistant postmasterships through an head and dirty appearance.
